member of the British Parliament receives no pay, and consequently it is a difficult matter for a poor man to get into Parliament and still more difficult to stay there. It was announced in the congress today that this question, as well as the kindred questions, those of payment of members of county councils and school boards, would come up prominently at the next session of parliament and the willingness of candidates for Parliament at the coming general election to

willingness of candidates for Parliament at the coming general election to vote for these payments would be made one of the tests upon which trades unionists would decide whether or not to support such candidate. It will thus be seen that the labor party seems inclined to ignore the old political parties, on the whole, and to support those who will support measures advocated by the Trades Union Congress.

A veteran parliamentarian speaking of the labor movement said: "If no other good comes out of this labor movement in this country it will have accomplished the immense task of having made the voice of labor respected and the demands of labor listened to with consideration."

Singular Disappearance of a Remarkable Young Woman.

'Slumming" and Religious Exercises Her Pet Pastimes.

She was Seen to Enter a Church and Ther Mysteriously Vanished-What Her Friends Say about Her History.

By Telegraph to The Times. CHICAGO, Sept. 10.—[By the Associated Press.] Miss Ava, a wealthy Englishwoman who came to Chicago reently to raise the standard of living in the slums, is reported to the police as missing. She had been stopping at the residence of Rev. Dr. Bolton. Last evening Miss Ava and Mrs. Bolton drove to the Jesuit College. Miss Ava en-tered the building, telling her compan-jon she only intended having a few minutes' conversation with a priest. Mrs. Bolton waited half an hour and finally became alarmed when Miss Ava did not return. She remembered that she had spoken of receiving letters in which had spoken received, and feared she had come to harm. Mrs. Bolton noti-fied the police. Detectives, who were sent out, learned from a priest at the church that Miss Ava had called, and after fifteen minutes conversation about religious matters, had gone away. All attempts to gain any ciew to her whereabouts after that time have thus far

been fruitless.

Miss Ava is said to be very wealthy, and has devoted her time and money to indulging her hobby for "slumming." Her friends say her crusade against wrong made her many enemies who have threatened her life. She came to Chicago the first of last month to carry Chicago the first of last month to carry on the work which she had acquired fame for doing in London. Several days ago she purchased a house on the West Side. Francis Mingay and family, who have charge of the house, are much mystified over her disappearance. Mr. Mingay said he could not imagine what had become of Miss Ava. When what had become of all a Miss Ava. When she first came here she continually complained that she was afraid Catholics would take her life. On Tuesday she received a letter and when she read it she became excited. Mingay has no idea why she should go to a Catholic church.

Mrs. Dr. Bolton, in an interview, save Miss Ava was received into her hus-band's congregation (Centenary Meth-odist) on probation about two weeks ago. They were much imusessed with her zeal in missionary work and her Christian character. Mrs. Bolton said she had accompanied Miss Ava to the college a number of times, but there was nothing in the young lady's life to heave the real party way way way and the to was nothing in the young lady's life to show she was in any way partial to the Catholic religion. Miss Ava never told Mrs. Bolton the object of her visit to the college and the latter never asked. Mrs. Bolton said that the day Miss Ava disappeared she waited at the college door-for fully two hours and a half, and when she did not appear she made inquiry. which was fruitless.

Father Fitzgerald, president of the Jesuit College, said this evening: "About 9 o'clock last evening Father Kelley, who is pastor of the church con-

Kelley, who is pastor of the church con-nected with this institution, informed me that he had been paid a visit by a lady shortly after 7 o'clock, and had, after an interview, led her to the church connected with the building; that she had expressed a desire to pray, and that he left her in the church noticed her carriage still at the door, and at my suggestion we sought for her in the church. The coachman appear-ing about that time and expressing fears for Miss Ava's safety, we made a thorough search of the entire church, but found no trace of her."

A Party of Eastern Experts Examining Deposits on the Coast. Deposits on the Coast.

SAN FRANCISCO, Sept. 10.—[By the Associated Press.] Robert Ramsey, Superintendent of Frick & Co.'s great mines and coke works of Connellsville, Pa, and Robert Bentley, secretary of the Ohio Iron and Steel Company of Youngstown, O., arrived here last night. They compose one of three prominent eastern parties for exploring the Pacific Coast to look up the coal, coke and iron resources with a view of coke and iron resources with a view of manufacturing coke, pig-iron and steel. One of these parties has been in California for some time, the other is in the Northwest and Secretary Bentley and Superintendent Ramsey have just arrived from the North, after three weeks careful inspection there. They visited all the big coal mines of Washington and Oregon and also inspected the iron mines. They have collected several hundred pannds of iron ore and forwarded it east to be of iron ore and forwarded it east to be tested. They are here now to ascertain what California's coke and Iron resources are and to learn whether the establishment of a greatiron and steel

manufactory would be warranted here.
"We have looked over the country,"
said Supt. Ramsey, "from Falrhaven
down. We have found good coking coal
from Wilkinson's mines, Puget Sound. As to iron, we are not certain, for our tests are not completed. Our investigations are not vet- sufficient to say if there is a supply of Bessemer ore, but we think there is. We are satisfied that the Pacific Coast has coal to manufac-ture good coke."

AN ASSASSIN'S DEED.

A Chinaman Mysteriously Murdered— Eight Celestials Arrested. San Francisco, Sept. 10.—By the Asociated Press. | Hom Ah Tam, a Chinese laundryman, was murdered tonight by an unknown assassin. He was sitting on a box outside his wash house smoking when the murderer placed a pistol within an inch of his ear and fired. Officers went quickly to the spot and found eight Chi-nese sitting quietly in the shop, paying no attention to their dying compaying no attention to their dying com-rade. Anyone escaping from the scene by the street would have been seen by the officers, so it is evident the mur-derer fled through the washhouse. The eight Chinamen, however, refused to answer any questions, protesting com-plete ignorance. All were arrested.

AN OFFICER KILLED. hot Dead by a Prisoner at the Door of the

San Francisco, Sept. 10.-[By the ssociated Press.] Late tonight officers at the branch police station at Folsom and Fiftd streets were startled by a pistol shot fired just outside the door. Rushing out, they found Of-ficer Grant lying dead on the pavement with a bullet hole in his head. A man with a ballet mole in instead. A man was seen running away and on being stopped it was found he had hand cuffs on his wrists which were afterward found to belong to Officer Grant. A discharged pistol was found on the pavement near the body. The man gave the name of Maurice B. Curtiss. He denies the shooting.

SAN FRANCISCO, Sept. 10.—[By the Associated Press.] Attorney-General Hart today settled a dispute between two justices of the peace of Los Angeles county, one of whom had been riding around the township and holding court place. His rival from place to objected, and the State's lawyer held that his objection was good, and gave as his opinion that every justice of the peace, including the Los Angeles circuit rider, must have a permanent of-fice.

Fresno to be a Small Chicago. San Francisco, Sept. 10.—Gen. Supt. Fillmore states that the removal of the to Bakersfield and Fresno will be effected by November 1. All the works

abandoned. The machine shops will go to Bakersfield and the offices to Fresno. The reason for this is that the railroad people have concluded to make the di-visions in the San Joaquin run from Lavisions in the San Joaquin run from Lathrop to Fresno and from Fresno to Bakerskeld. Mr. Fillmore says this move, coupled with new railroad enterprises, will make Fresno a small Chicago.

Sportsman's Association continued its shooting meeting at the Oakland Trotting Park this morning, The event on the programme was the finish of the contest for the Selby medal. After the result of yesterday's sport, out of twenty-six original entries only four were left to compete. By scoring fifteen straight birds the medal was won by C. A. Merrill of Stockton, who during the two days' shooting made a score of forty-nine straight birds. The Native Sons' Celebration

SANTA CRUZ, Sept. 10.—The feativ-ties attendant upon the celebration of of the forty-first Admission day ter-minated today with a grand bull's-head barbecue given at the beach by citizens to the visiting Native Sons, and plates were laid for 600 persons, and fully 1500 people partook of the feast. Music was furnished by a local band. Much enthusiasm was manifested by the visitor?

odist Mission school in Chinatown a quiet, thoughtful young Chinaman desiring earnestly to read and speak the English language. Flinding ready hands and willing hearts to assist him, he soon mastered his little First Reader, and eagerly took to reading the New Testament to learn about the "new religion" and the wonderful Savior he had heard so much about. Faithful teachers instructed him how to take Christ into his heart and life, and when the invitation was given to any in the

take Christ into his heart and life, and when the invitation was given to any in the school who wanted to be Christians to kneel at the little altar, Ah Mee immediately left his chair and kneit at Christ's feet, and during the prayer that was offered was enabled by faith to receive Him as his Savior. The following Sunday he joined the Chinese Sunday-school, which meets in the First Methodist Episcopal Church at 2 p. m. He was always present, drinking in the teachings of the word with an eagerness that we, who have always had it, know nothing about. The defendant appeared before the notary in obedience to a subpoena issued in proceedings taken under secs. 2031, 2021 and 1986, C.C.P., and answered certain questions propounded, and refused to answer certain other questions, claiming that his answers thereto might tend to subject him to punishment for a felony. The position of the defendant's attorney is that the action being an action for divorce and the only issue being the issue of marthat the action being an action for divorce and the only issue being the issue of marriage between plaintiff and defendant, and it appearing from the pleadings that defendant was married to another subsequent to the marriage alleged in the complaint, that any evidence tending to establish the marriage alleged in the complaint would necessarily tend to prove that he, the defendant, had committed the crime of bigamy, and the defendant is privileged under the Constitution, art. 1, sec. 18, and C. C.P., sec. 2005, from answering any question which would tend to prove him guilty of that crime.
>
> I am inclined to the opinion that this position is well taken, but deem it unnecessary to decide that question. The action being for divorce, it is not governed by the same rules that apply to ordinary actions. In that action the parties are not the only people interested in the result. The public has an interest in the result of every sult for divorce, and the policy and the letter of the

that we, who have always had it, know nothing about. When we had the lesson on the "Water of Life," and Christ said, "The water that I give you shall be in you a well of water, springing up into everlasting life," Ah Mee clasped his hands, and, looking up, said: "That's so good; and it's for Ah Mee, too." Those who taught him felt the Master's touch while he was "drinking at the fountain." He expressed a wish for baptism, but while he was waiting for the baptismal Sunday in the dear old Mother Church Jesus called him, and on the evening of the 2d of September, 1891, Ah Mée went to his heavenly home, and was baptized by the dear hand that was pierced for him so long ago.

We buried him in our pretty Evergreen Cemetery, where his body will sleep till the last trumpet sounds.
Once of his Chinese friends said, when we told him of his sudden death of heart failure. "Ah Mee's body very sick, but his spirit all well up in heaven."

Who shall say after this that God's blessing is not on our work in the Chinese mission, when even one soul has been saved so sweetly as this one.

We sincerely hope and pray that this incident may strengthen the faith of the doubting ones, and send us more workers in the great harvest field waiting to be garnered for the Master.

Yours in the work,

Hellen A. Birdsall.

that action the parties are not the only people interested in the result. The public has an interest in the result of every suit for divorce, and the policy and the letter of the law aim to afford the fullest possible hearing in such matters. (McBlain vs. McBlain, 77 Cal., 509.)

The defendant in an action for divorce, as in any other action, can be compelled to give his deposition under sec. 2021, subdivision 2, C. C. P., but his refusal to appear in obediance to the subpœna, or to answer all proper questions, should, I think, be punished by fine or imprisonment, and not by striking out his pleading.

The motion to strike out the answer is denied.

Heathman vs. J. D. Betnune, was granted by Judge Clark yesterday, in accordance with the following opinion handed down therein:

Motion to dissolve an injunction. The levying an execution upon certain property of plaintiff, alleged to be a homestead. Whether or not the property constitutes a valid homestead is the question presented.

"A homestead consists of the dwelling house in which the claimant resides and the land on which the same is situated." nouse in which the claimant resides and the land on which the same is situated."
(Civil Code, sec. 1237.) To determine, whether a piace of residence is a dwelling house within the meaning of this section, the test is: What is the principal use to which the property is put? (Maloney vs. Hefer 75 California 424.)

The affidavits used on the hearing of the motion show that in 1885 plaintiff erected a dwelling house on the lot of land in question and took up his residence therein; that in 1886-7, having met with financial losses, and his income from the practice of his profession of attorney actiaw being insufficient for the support of his efamily, he proceeded to erect the building in question with a view of deriving a revenue therefrom, and to that end he borsowed \$17.500. and erected a building of forty-seven rooms, designed as a hotel building; that on October 9, 1888, he leased said property for a period of three years, at a monthly rental of \$350. excepting and resirving from the lease, however, two rooms in the second story of the building; in which he continued to reside with his family. The lease described the property as "That cer-

tain hotel or boarding house known as the Heathman, or Hotel Heathman." Thereafter, and while the said lessee was man aging and conducting said house as a hotel, plaintiff filed his declaration of homestead. I am of opinion that these amdavits show that the principal use to which the property was put was that of business, 'all, the hotel business; and plaintiff cannot, therefore, by continuing to live in two rooms of such building, give it the character of a dwelling house.

such building, gardened withing houses.

It follows that the motion to dissolve the injunction must be granted.

Upon motion of the District Aftorney, informations were filed in Department One yesterday, charging Ah Tet, Lem You, Woo Chung, Low Fou and Lem Hung, five of the witnesses for the defense on the first trial of the Wong Ark

case, with perjury.

The trial of the case against Truman
Lee and G. A. Trepanier, the two railroad men, accused by William Bertram,
a baker, of having held him up and roba baker, of having neid nim up and rob-bed him of \$20 on the Downey-avenue bridge on the night of May 3 last, was concluded in Department One, yester-day afternoon, the jury on the first bal-lot agreeing upon a verdict of acquittal. In Department Two, yesterday, Judge Clark overruled the demurrer to the contest over the certain of O. Miller contest over the estate of O. Miller, deceased; overruled the demurrer to the complaint in the case of C. F. Bainter vs. R. S. Baker et al., and overruled that interposed to the first cause of action in the case of Sanborn vs. Fergu-

action in the case of Sanborn vs. Ferguson, but sustained it as to the second cause of action.

In Department Three, yesterday, Judge Wade granted Receiver Crank of the Pacific Railway Company leave to pay \$12,540, the amount of interest accrued upon 836 of the first mortgage bonds of the cable company.

The case of W. Longstreet vs. J. S. Thompson, a suit to forcelose a mort-

THAT FORGED MORTGAGE

Another Arrest in Connection with the Affair.

William S. Compton Taken in Charge by the Officers.

Locked Up in Jail, but Afterward Released on Bond.

Hoy Says He is the Man who Took Him to the Green Ranch, but Compton Denies all Knowledge of the Case.

Ever since the arrest of the man Hoy for forging the name of a man named M. M. Greento a mortgage on the latter's eighty-acre ranch, Sheriff Gibson ter's eighty-acre ranch, Sheriff Gisson has had Deputies Henry Russell and Billy Hammill working on the case. Sheriff Gisson is convinced that there is a regularly organized gang who have been perpetrating frauds of this character, and he thinks that when the matter is the coughly ventilated, there will ter is thoroughly ventilated, there will be disclosures that will make people

open their eyes.

The day following Hoy's arrest, the the officers secured evidence enough to take Ed L. Baker into custody, and he was placed behind the bars, where he was placed behind the bars, where he has since remained, being unable to give bail, and yesterday another sensational arrest was made in the person of William S. Compton, a young man who has for some months past been occupying rooms in the Bonebrake-Bryson Block as a real-estate operator. The arrest was made by Deputies Russell and Hammill late yesterday afternoon, on a warrant charging Compton with the forgery of the Morris M. Green mortgage, which was engineered by Baker and Hoy on Saturday last. Compton was taken before Justice Stanton for arraignment, and in default of bonds in the sum of \$2500 was sent to Jail.

them in making further arrests.

It was learned, however, that yesterday afternoon Compton was taken to the County Jail, where he was identified by Hoy as the man who took him out to Green's ranch. According to Hoy's statement Compton took him out to the ranch in a buggy just ahead of Baker and Stassforth, and instructed him how to act. He took him up to the side of the fence and told him to get over and stand around the pump as if he were the owner when the men came up. While they were talking they saw the buggy containing Baker and Stassforth approaching, when Compton told Hoy he would drive on and when the men got through and drove off he would come hack after him and take him to the city. back after him and take him to the city, which he did.

The officers who have been at work on the case say there may be three or four more arrests in connection with four more arrests in connection with the case, and that some of them will create a sensation. They say that several attorneys have been at the jall to see they and Baker, and that they are very auxious to find out just what was said for what purpose they cannot say. It any rate, there is a good deal of unea these, and the Sheriff's office is confident that they will very get at the confide it that they will yet get at the bottom of the whole affair.

regarding his arrest. He stated that he never saw Hoy until he was taken to the jail, and all he knows about the case is what he has read in the newspapers. He knows Baker, but never had any business with him, He was expecting to get bail every moment, and says he will have no trouble in clearing himself.

At 8:43 o'clock last evening Compton was released from jall on bond, his rather qualifying as one of the sureties, and he at once came to The Times office, when he repeated his statement that he had never seen Hoy until he met him in the County Jail. Compton further denies all knowledge of the Green affair, beyond what he has seen in the papers, and says he has no idea of the causes which led to his arrest.

TWO FIRES.

A Mysterious Blaze on the East Side-

a mysterious fire took place in J. E. Howe's grocery store on the corner of Downey avenue and Hayes street, East

Mr. Howe was about to get on the cable to come over to this side when Officer McKeog called to him that the rear part of his store was burning. The part of his store was burning. The alarm was given, and, as the East Side engine house is only one block from the store, a stream of water was soon play-ing on the fire, but the blaze got among a lot of coal oil cans and the building and stock were badly damaged before the firemen got the fire under control. The fire started in a room in the rear of the building that was formerly used as a bedroom, and as the door leading to the store was locked there was no way to enter the room except through a' window facing on Hayes; street. The window was open, and it is supposed that some one fired the building from that quarter, but Mr. Howe has no idea who it could have been. The building was valued at about \$1000 and was insured for \$800, and the stock was insured for \$800, and the stock was insured for \$800, and the stock was insured for \$1000.

Yesterday afternoon a small fire occurred in the rooms of Mrs. Susande, a dressmaker living at No. 207 Temple street, caused by the explosion of a gasoline stove. The engines turned out, but there was no necessity for their services, as the fire was extinguished before their arrival. Loss, nominal.

A MISSIONARY ENTERTAINED

Mrs. M. E. Crow entertained a few friends at dinner last evening in honor of Miss Watson of Tokio, Japan, who is returning to her missionary work there after a year's leave of absence. Miss Watson is a woman of pleasing presence who has spent eight years in Toldo laboring in the mission schools there. This evening she will tell of her work among the Japanese, speaking in the First Methodist Church. She sails from San Francisco next month for Japan When she came to America last year she brought with her a bright young Japanese woman who has entered an eastern college and will complete the classical course there before returning to her native country to enter the mis

sionary field.

Miss Watson will have many entertaining things to tell this evening of that densely populated and interesting country. There is no admission fee and everyone will be welcome.

A NOVEL BIRTHDAY PARTY.
Rev. R. S. Cantine passed the fifty-fourth milestone in the journey of life yesterday, and last evening the event yesterday, and last evening the cross-was celebrated by a feast. It was not a full-dress affair; the music was not ren-dered by a stringed band; no material refreshments were served. It was a consecrated party—an old fashioned Methodist lovefeast. The church par-lors were not large enough to hold the Methodist lovereast. The church par-lors were not large enough to hold the company of guests, for the invitations were general, and the doors into the auditorium had to be thrown open. The voices of the people blended in songs that had more of music and of harmony to the ear attuned to the melody of the gospel than the grandest symphonies of a trained orchestra. The toasts responded to all hinged on spiritual and not material things. Nearly one hundred testimonies were given in less than an hour, interspersed with singing. Flowers had been arranged about the rooms and this novel birthday party concluded with a collection taken for the benefit of a family who are just now passing through dee afflictions, over whose home is hovering the angel of death. Perhaps it wasn't a fashionable way of observing one's birthday, and it was not, surely a worldly way. Rev. Dr. Cantine has been the honored or the First Methodist Church pastor of the First Methodist Church here for the past five years and in that time has won a place in the hearts of the people which it will be hard to fill. Under his ministrations the church has grown to be the largest and most popular one in the city and it is with genuine sorrow that his congregation recognize the inexorable law of the Methodist Church which prohibits a longer stay than the prescribed five years at one charge.

one charge. AFTERNOON RECEPTION.

Mrs. Dr. Hamma gave a reception to the ladies of the First English Lutheran Church in the parsonage yesterday afternoon. The large attendance and cheerful spirit manifested must have convinced Mrs. Hamma of the high esteem in which she is held, and of the gratitude of the congregation for the efficient service rendered by Dr. and Mrs. Hamma during Rev. Mr. Heisler's

illness.

As the guests entered a young lady, who was stationed at the door, quietly, and unobserved by the visitors, noted the first sentence uttered by each guest when she arrived; after the light refreshments of cofiee, cake and lemonade had been served, these greetings were read, to the surprise and no little amusement of the guests. The lady who were read, to the surprise and no little amusement of the guests. The lady who arrived first, Mrs. Hickathier, was rewarded for her promptness by a lovely China cup and saucer, and the two tardy guests, Misses Bossamier and Moore. were reprimanded by a box of orange toothpicks. Others present were Mmes. Bosbyshell, Getz, Yerger, Hiscock, Mayes, Winters, Wheeler, Peterson, Weathersby, Garrett, Keller, Hickathier and four daughters, Misses Hoff, Rommel, Bingham and others.

The only two gentlemen who ventured to be present in such a company of ladies were Rev. Dr. Hamma and Mr. Bosbyshell.

DIME SOCIAL.

The dime social for the benefit of the Boyle Heights reading-room, held Wednesday evening at the residence of S. M. Perry, was a very pleasant affair. At 10:30 o'clock yesterday morning | decorated with flowers, and the pleasant decorated with nowers, and the pleasant manner in which Mrs. Perry and daugh-ters received their evening guests did much to abolish that stiffness often felt on such occasions. The music consisted of instrumental solos by Miss Lora Variel and Mrs. George Stone, and instru-mental duets by Miss Alice McCune and Mrs. Stone. Miss Harrison and Miss Williams charmed the audience with some finely rendered recitations. G. W. Simonton read a pathetic selection with such feeling that it seemed the narra such reesing that it seemed the harri-tion of some real sorrow. Near the close of the evening Mrs. Sanderson sang some comical songs to make the children laugh, which called forth hearty ap-plause from the children of larger

DR. WOH, The Eminent Chinese Physician.

Dr. Woh's life work has been from early youth one of persistent and untiring in all branches of the art of healing human sickness and disease. Born in China, of influential parents, of a family whose ancestors have been for generations deservingly renowned as leading physicians, Dr. Woh naturally followed in the footsteps of his fathers. In China he has practiced his profession for several years, being number of patients, his wonderful and many cures, and the great list of letters from enler of sickness and all diseases.

healer of sickness and all diseases.

For many years I have been troubled with lung disease, which finally ended in asthma and consumption.

I consulted win the best physicians I could find but they did me no benefit, but on the contrary I got worse and worse, until I was told by one of them that I could not recover. Dr. Woh took me in this condition. He has in two months' time entirely cured me. I most cordially recommend him to all sufferers.

MIDSUMMER HARVEST NUMBER

The Tos Aureles Times

This issue, consisting of 20 large pages, contains a full and accurate description of the progress made during the past few years in the development of Southern California's ultural resources, the present condition of the country, the crops, prices and markets, water and irrigation, cost of land, cultivated and uncultivated, and openings for more growers, together with accurate accounts of the fruit and other crops gathered or to be gathered during the season, and graphic descriptions of the orchards and fields as they have been actually found by our reporters and special correspondents.

This is, without exception, the most complete description of the agricultural resources of Southern California; of

The Land and Its Fruits,

ever issued. Seven counties are described in detail—Los Angeles, Orange, San Bernardino, San Diego, Ventura and Fresno, the representative county of the great San Joaquin Valley. The matter is thoroughly practical in character, dealing with just those features that a person who is thinking of coming to settle in Southern California would wish to know. Here will be found the actual prices at which land may be purchased in the various localities; what may be raised; the prices per acre realized from year to year for products: numerous examples of returns from fruit and other orops; interviews with successful horticulturists who started on a small scale, showing how they managed, and directions where to obtain cheap land, which, it is shown, may still be had in this sec-The issue forms a comprehensive bird's-eye picture of

Southern California as it is.

Incidentally, in the course of the description, are given valuable hints from actical men as to the culture of the apricot, fig. orange, lemon, walnut, olive and practical men as to the culture of the apricot, ng, orange, lemon, wainut, olive and other fruits

THE State of New York, by an act of the Legislature which has recently taken effect, has given the sanction of law to a simple, common sense form of deeds and mortgages of real estate. This reform has been urgently demanded by bench, bar and e public for generations. Los Angeles shows up favorably in many respects in a bulletin on the so-cial statistics of cities, recently issued by the Census Office. We are credited with eighty-three miles of paved streets; San Francisco with ninety-two. The cost of the police force to each head of the population is: in San Francisco, Los Angeles, 57 cents. The cost of the fire department in Los Angeles is rather more per capita than in San Francisco, being \$1.33 as compared with \$1.15.

THE tourist business is one which Southern California has not yet commenced to develop, yet it is a very important one, and in many places yields a large income. Five million dollars aid to have been paid out last season by tourists and boarders in New Hampshire, and Switzerland reckons its income from this source at \$25,-200,000 annually. Outrages of Labor Unions

The San Francisco Abend-Post has for some past been waging a war against the tyranny of labor unions. That journal adduces proofs to show that the modern labor movement, as engineered by men who labor only with their mouths, far from being a movement for freedom and justice to the op pressed, tends toward oppression and enslagement and toward the annihilation of individual rights, not for the benefit of all, but of a few professional agitators, who, even where they do not obtain financial adjantages, always procure great power, which they may use at any moment, and which they have been using on many occasions merely for their own selfish interests. As soon as the unions made it their aim to at tack others and used the strength they had obtained for aggressive purposes, they became dangerous centers of conspiracy against social order. Their own members were forced to take part in a war of depredation, of which their own consciences disapproved. Abend-Post says:

Abend-Post says:

Most of the modern labor unions are no longer unions for the benefit of the laboring men who belong to them. They are fighting companies, led by professional agitators, who wage war against all those who possess property, and try to extort money from them either by blackmail or by ruining their interests. The members of these fighting unions contribute to a general treasury, not so much in order to help each other in cases of illness or missiortune as for the purpose of furnishing fighting funds to their leaders and means to those laboring men who prefer enlisting in the anti-order army to earning their wages by labor and industry.

There has arisen in modern times a bind of soldiery consisting mostly of idle young fellows, who are engaged by the agitators at a fixed pay for the purpose of fighting their battles for them against the propertied classes, and while the individuals of the unions constituting this soldiery spend

the unions constituting this soldiery spend their time in idling about town and terror izing the community, those workingmen who, either by circumstances are forced, or by predilection prefer, to earn wages through hard labor, have to surrender a very large percentage of their earnings in order to support those of their comrades who deserve nothing so little as the title of laboring men.

laboring men.

To our merchants and industrial men, and to all who have invested money in our community, these hirelings in the war against established order form a great danger, because they produce an unsettled state of affairs in our industries, which renders business transactions impossible, and only an organization among business. and only an organization among busines men themselves will be able to render the men themselves will be able to render their plots aimless. The somewhat eager movement, in certain quarters, to enter upon a new outfall-sewer campaign should be checked long enough to permit of an honest, candid and careful examination of all the pros and cons that enter into this so serious question. The people will approve the construction of an efficient sewer system for Los Angeles. and vote money for the purpose; but an ocean outfall is not the only recourse in sight. It is an enormous work, an expensive task, to build to the sea, and the practical questions for the Coun-cil to consider are: Does the city need such a system for years 4 there not a betcome; and is There is a flowing well within ten miles ter, quicker, more economical, more common sense plan within reach? State Educational Journals. An interesting fight which has for some time been waged around and within the State Board of Education, and which has been watched from afar by educa-tional and journalistic circles, will, most likely, come near reaching a set-tlement when the board meets today in Sacramento. The publishers of rival publications—the California Educational Review and the Pacific Educational Journal-want the board to desig nate their respective periodicals as the tional Department, and incidentally the profit which such designation would imply. When the subject came before the board in July, two votes were cast for each of the publications, the Governor's absence causing would be made a medium for communicating decisions and notices from the State Superintendent and the board, and be insured a patronage and circu lation which would be desirable to the opposing claimants. The publishers of the Review (Campbell & Lyser,) appear to be the lowest bidders, they having offered their journal at \$1 per year. Whereas the other "claimant" puts its price at \$1.50 per year. In addition to this the Review has received numer ous and very strong indorsements from educational people throughout the State. The publishers have made out a educational very strong case for their journal and application before the

By Telegraph to the Times.

WASHINGTON, Sept. 10. [By the Associated Press.] The Board of Managers of the National Home for Disabled Volunteer Soldiers has about concluded its quarterly meeting in this city. At the last meeting provision was made for the creation of medical boords at each branch to examine the inmates and ascertain what proportion of them are able to maintain themselves and are not disabled. These reports are now under consideration

The board at the California branch reports that there is not a single in-mate who could properly be excluded. In the central branch the board found that thirty-five inmates should be excluded, because they have sufficient in-come to maintain themselves, and seventeen because they were physically able. The Milwaukee branch, has not yet reported.

The board has not yet determine upon the line of policy to be pursued in these cases. It is desired to rid the Homes of inmates really able to take care of themselves, in order to afford room for deserving veterans, but so many considerations arise that it is not practicable to apply a general rule.

OREGON SWAMP LANDS. Long-disputed Question Decided by Sec

WASHINGTON, Sept. 10.—[By the Associated Press.] Secretary Noble to day rendered a decision in a long pend ing case of the Oregon swamp lands, known as "List No. 5." The case dates back to the passage of the swamp land grant of 1850, which was extended to the State of Oregon, and has been be fore nearly every Secretary since that time in some shape or form. The present matter is before the department on a writ of certiorari, and involves nearly 58,000 acres.

The Secretary, from the affidavits presented, thinks the decision of the Commissioner of the Land Office in the ordinary hearings is not justified, and, entertaining such views, he reverses the Commissioner's decision, dismissing the contests and all entries and filings on the land in controversy, and direct the Commissioner to prepare clear lists of the lands so that they may be approved and patented.

Good Runs Made and Three Skirmish Records Broken-Standing of the Competitors at the Close of the Day.

By Telegraph to The Times.

CHICAGO, Sept. 10.—[By the Associated Press.] This was a gala day in the United States Army national shooting tournament, It was the first day of the competitive skirmish firing. Eight marksmen who composed the first skirmish line stepped up to the 600-yard limit and waited for the signal to start When it came they started off with swinging stride. Then in quick succession came the signals "double time, "halt." "fire." At the command "fire" the men dropped on the ground at full length and the rifles began to cracks Then for thirty seconds it was a continuous roar, the bullets whistling in the air and embedding themselves in the back-stop, dust and pebbles showering around the figured. At the command "cease firing" the men arose, and the process was repeated until ten halts had been made.

Some exceptionally good runs were made, three of them breaking previous skirmish records on this range. Powell, Co. D., Fourteenth Infantry, whose score of 178 points was the best made Wednesday at target shooting, piled up a grand total of 178 points in his afternoon run, but his forenoon un piled up a grand total of 173 points in his afternoon run, but his forenoon run was only 99, so for the day he got but 136 points, which was equaled by but three contestants, however. Sergt. Mayer, Co. G., Seventeenth Infantry, made the second best run, riddling the figures to the extent of 143 points. His morning run was 118, bringing his average for the day up to 131.

Sergt. Rose. Co. A, Eighteenth Infantry, scored 115 in the morning and 137 in the afternoon, average 126. His previous score gives him a total of 404

A LEGITIMATE BUSINESS.

What the World's Fair Company Pr

poses to po.

The San Francisco Chronicle of Tuesday contained an article reflecting to some extent on the World's Fair Company, and rather intimating that the concern was not established on business principles. On investigation, however, the solidity of the company was ascer-tained, and the Chronicle of Wednes-day makes the following statement:

tained, and the Chronicle of Wednesday makes the following statement:
Further inquiry into the affairs of the World's Fair Company, which has an office in this city under the management of F. Person & Co. at No. 211 Sansome street, shows that it is a legitimate business enterprise, backed by solid financial support. The World's Fair Company is incorporated under the laws of this State. Its headquarters are at Los Angeles, and H. T. Hazard, Mayor of that city, is president, and A. D. Childress, president of the City Bank of Los Angeles, is treasurer. The other officers of the company are well-known business men and capitalists of that city. The company is an outgrowth of another company organized in Chicago, with C. D. Stone, president of the Consolidated Street Railway Companies of that city, at its head.

The Ohicago company is known as the Columbian Exposition, International Exhibit and Information Company. It proposes to establish and maintain during the World's Fair in Chicago an exchange in a building to be erected at a cost of \$300,000, where visitors who pay \$5 for a membership certificate will be taken care of, directed to hotels and boarding places where good accomodation can be obtained at reasonable rates fixed by contract. It will furnish all the conveniences of a modern first-class clubhouse. A directory of visitors to the fair will be kept, so that persons coming from any country or State may easily learn who, if any of his or her friends from these parts of the world are in the city and where they are to be found. Writing materials will be furnished, and telegraphic and telephone conveniences supplied.

In connection with this company the World's Fair Company of Los Angeles was formed. Membership certificates in

telegraphic and telephone Contracts supplied.

In connection with this company the World's Fair Company of Los Angeles was formed. Membership certificates in the Los Angeles company entitle the purchaser to all the conveniences of the Chicago company, the latter being under \$10,000 bonds to the Los Angeles company for the fulfillment of its part of the contract.

The firm of F. Person & Co., which acts as the general managers in this city of the Los Angeles company, is composed of George Easton, the well-known insurance man and brother of Wendell Easton, F. Person and V. D. Duboce, all three reputable business men.

George Easton, the well-known insurance man and brother of Wendell Easton, F. Person and V. D. Duboce, all three reputable business men

The plan of the World's Fair Company is this: It is well known that many people can more readily spare \$1.50 a week for 100 weeks than they can raise \$1.50 a the end of that time. To members who will pay \$5 down and deposit this weekly saving of \$1.50 for 100 weeks the company offers to supply return railroad tickets to Chicago during the World's Fair, twenty-four meal tickets on the way, six days first class board in Chicago, six admission tickets to the fair, and other small accommodations mentioned in detail in the contract or membership certificate.

The plan is based very much upon the plans that have made the large European and American excursion companies so successful and popular.

The member is not required to pay his weekly installment to F. Person & Co., the managers, but to deposit it in. either the Bank of California, the First National Bank or the Pacific Coast Savings Society to the credit of the World's Fair Company, every deposit being receipted for by the bank of the depositor's selection in a stub book furnished to him with his membership certifibate.

Prominent business men to whom the

nished to him with his membership certifibate.

Prominent business men to whom the scheme has been explained regard it as feasible and practical, and affording to persons of limited means an excellent opportunity to visit the fair at much less cost than they could secure the same facilities by their individual efforts.

In estimating the cost \$80 has been assumed as the possible price of the return railroad faire, but in view of the fact that the railroad people have given Mr. Easton to understand that the fairs may be greatly reduced during the fair the company guarantees its patrons that in the event of the fare being reduced the will return them the amount representing the difference between \$80 and the actual faire; so that if the round-trip rate should be reduced to \$50 the holder of the membership certificate, who may have paid in his full \$150, will have \$30 returned to him and will be enabled to spend six days at the fair for \$120, including all necessary expenditures

ORANGE LAND.

The Gov. Stoneman Home Tract

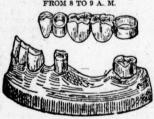

Is well adapted to the growth of Citrus Fruits. Since this property was put upon the market three local nursery men have purchased tracts to set out nursery stock upon. These men know all about the soil and the unfailing water supply. Without good soil and plenty of water their enterprise would prove a failure. There are still some choice tracts for sale.

F. Q. Story of Alhambra has purchased ten acres, which he intends setting next spring to Navel oranges.

F. Q. Story of Alhambra has purchased ten acres, which he intends setting next spring to Navel oranges.

Among the purchasers of the Gov. Stoneman Home Tract, since it was put upob the market, we are pleased to mention, among others, Attorney J. A. Graves, F. Q. Story, E. Pollard and J. C. Wallace, whose sagacity for good bargains is admitted by all who know them. These gentlemen reside in the vicinity of this tract, and know all about the title, the property, and all the conditions surrounding it—having lived in the vicinity for years. These facts being known should set at rest all idle rumors concerning it. If parties will call upon EARLEY & CONGER. No. 30 Bryson-Bonebrake Block, Los Angeles, or No. 56 East Colorado Street, Pasadena, they can see plats of the tract and also learn of the lots unsold. To such, we can now assure them that there are still some of the most desirable pictons remaining. We ask pleasure in giving information and showing them over the property.

There is a Beautiful Valley in San Bernardino County

ALESSANDRO TRACT,

Containing 21,000 acres of the finest Orange and Fruit Land on the market today in Southern California. Less than one and a half years ago 'twas only good for a sheep pasture; since then the Bear Valley Irrigation Company has brought water from the mountains 40 miles away, through and over the mountains, across the valleys, and have poured its life-giving elements on that once barren plain. Behold the transformation! Today there are over 200 houses at

ALESSANDRO

Occupied by the owners, who are planting their orchards, setting out their vineyards, sowing their grain, making for themselves beautiful homes. Nature has been lavish of her gifts at Alessandro—water has done the rest. 9000 acres have been sold; 2500 acres have been planted, 2500 more will be planted the coming year.

WATER is delivered at the highest corner of every 10-acre lot, one inch to every four acres, under one of the best systems in the State. The new town of Moreno, on east end of the tract, has fou brick blocks, nearly completed; all rented for general merchandise. A church and schoolhouse have already been established. Some of the best people from New England, Western and Middle States are today living at Alessandro, and more are constantly coming.

FROM THIS DATE the price of Alessandro land will be \$110 per acre, and all land sold will be sold plowed.

Four years ago Redlands was what Alessandro is today. Four years from today Alessandro will be what Redlands and Riverside are today. For further information, maps, terms, etc., address THEODORE. CLARK.

SINCE LAST SEASON

We have more than doubled the size of our cloak department by putting in new cases, new fixtures, and a lot of other improvements. This was done to do the leading cloak business of the city. Then we rummaged over all the best cloak stocks in the the United States, took a few here and a few there and have got together the best line of cloaks we have ever carried; then we made a clean sweep of all the old help in the department and put in an entire new force. Now we are doing the largest business in cloaks in the city and there is a reason for it. Our stock is right and so are the prices, and we have help that will show you a thousand cloaks where one was shown before. Then we will sell you a nice long black fur cape with heavy rolling collar for \$5.00. The actual value is \$10.00; and a good stylish fur cape for \$3.50; and we are selling lots of them as hot as the weather is. On all our wrapping paper is printed, "The largest cloak department in the city," and every word is gospel truth.

Has the largest Beet Sugar Factory and Refinery in the world, and the United States Experiment Station is Located here.

This celebrated ranch is the property of Mr. Richard Gird, and contains about 50,000 acres; 16,000 acres of it has been put in the market in tracts to suit,

bounded by Pomona, Ontario and Riverside, places noted for fruit culture, beauty, etc.; 10,000 acres of artesian water lands, which will produce alfalfa, corn, beets, etc., without irrigation. The best artesian water is provided for deciduous fruit and choice orange lands. Excellent well water is abundant at from 8 to 25 feet deep. The land is porous, smooth, unbroken and ready for the plow.

The crops need no housing, sacking or boxing, or holding for market. With right tiliage, the yield is large and profits sure. Wherever in Europe or the United States this industry has been established, land has quadrupled in value and the people greatly prospered.

OFFICE OF THE TIMES,
LOS AFGELES, Sept. 10, 1891.
There is some encouragement for prunegrowers in the estimates of Secretary Leleng of the State Board of Hortculture on
the amount of the crop and probable prices.
He stated that while it is somewhat early
to speah authoritatively concerning this
year's prune crop, conservative estimates
place it at between 15,000,000 and 18,
000,000 beauds. The shortage, as compared with the expected output, is due to
late raics in some localities, and excessive
heat in others. Prunes are being contracted for at the rate of 6½ to 5½ cents
yer pound in bulk. There has been a considerable amount bonced at these figures,
but many growers are holding back for
better prices. The quality of this year's
crop, he stated, was excellent, and they

better prices. The quality of this year's crop, he stated, was excellent, and they should sell in the East at 2 to 3 cents a pound more than imported fruit.

The market for choice varieties of potatoes is somewhat figmer. While the supply on hand is abundant the stock of the best varieties is none too large, and prices are higher.

NEW YORE, Sept. 10.—The stock market opened generally fractionally higher than last night's figures. For a short time Missouri Pactile and Rock Mand exhibited special weakness. The demand, however, soon changed the temper of speculation and the Vandarbilts led the upward movement, which lasted throughout the forenous and placed most of the active stocks tilarge fractions above first prices. The noon and placed most of the active stocks at large fractions above first prices. The buying power then fell away. A heavy failure in kondon added its induone to the bear presente and prices receded all along the line, Lake Shore being one of the weak-est, though as a rule the Gould shares led the list. The decline was not checked until the last few minutes, when a feeble raily occurred. On closing the market was firm, but at nearly the lowest figures of the day. Government bonds were easy.

Receiver I. H. Polk of the Southern California motor road states that in all probability a handsome depot will shortly be crected at the motor terminus. The plans have been forwarded to the Southern Pacific officials in San Francisco. The depot is to be two stories high with a pressed brick front. On the first floor will be the ticket office, waiting room and baggageroom. On the second floor will be four offices.

There is no let up as yet to the warm weather at the seaside. The thermometer respected its record of 80° yesterday, the same as on Tuesday. This is very unusual for Santa Monica as is shown by the fact that the mercury has risen so high only two days this season.

The crowd of daily visitors continues large and while a number of campers and cottagers have left new ones are taking their places. The indications are that the season at the seaside will not show much of a break until the first of October.

The sporting sason has had its best days. The tennis tournament closed on Tuesday afternoon, after a lively continuance of two days.

The sequence of these amusements was just right. They came in the order of the atrical entertainments. First, we had the classic drama and then the farce—broad and extremely ridiculous in some of its make-up. Tennis is smooth, skillful and pretty in its movements. Polo and its kindered sports are rollicking, grotesque and at times very funny.

Polo in itself is an exciting game and affords ample opportunity for skill, but its attractions are dulled from the fact that the most prosperous one for the catting the streets of San Bernardino. Yesterday to the proper state of the section of the road have been buying acre property in the vicinity of San Bernardino. Yesterday a sale of ten acres in the vicinity of Mentone for \$1900 was made. It was raw land through thim all business must be done.

Receiver I. H. Polk states that the Southern California Motor road by the Southern Pacific Company a number of offices.

and the polo sports ended on Wednesday afternoon, after a lively continuance of two days.

The sequence of these amusements was just right. They came in the order of theatrical entertainments. First, we had the classic drama and then the farce—broad and extremely ridiculous in some of its make-up. Tennis is smooth, skillful and pretty in its movements. Polo and its kindred sports are rollicking, grotesque and at times very funny.

Polo in itself is an exciting game and affords ample opportunity for skill, but its attractions are dulled from the fact that there is an element of hardship in it that borders on cruelty to the poor ponics. When the mercury is at 80 degrees and a 500-pound pony has to carry a 180-pound man, and go through, all the spasmodic changes of being suddenly urged forward, then jerked backward with equal suddenness; now twisted this way, then surged that way, with occasional whacks on the shins, it is no fun to the plucky little animals. The proceedings are highly suggestive of the fable of the boys and the frogs.

But polo didn't enter into the two days' sports. There were all sorts of funny races and games on the polo grounds the past day, which have already been mentioned. The second day was confined to races on the track. There were eight events, as the horsemen call them

Hurdle race, ½ mile, over 6 flights of hurdles, for polo ponies. Top weight, 175 pounds.

Tandem race, ½ mile, over 6 flights of hurdles, for polo ponies. Top weight, 175 pounds.

Three-quarter mile dash, for horses nominated and ridden by members of the polo club, minimum weight 180 pounds.

One mile trot, open to residents of Santa Monica only.

One-half mile Galloway race, 15 hands and under, weight for inches. The planting of orchards in this and ad-joining valleys this coming season will ex-ceed by far any previous season. Decidu-ous trees are taking the preference outside of this settlement, and the demand is se of this settlement, and the demand is so great as to tax the capabilities of the lead-ing nurseries. This speaks well for the prosperity of the county, as well as the enterprise of the people. This information is obtained from L. C. Cummins, manager of Hall's Addition Nursery Company, and

There is a project on foot to furnish the Terrecina Hotel and open it for the winter Terrectina Hotel and open it for the winter travel. This is a large, fine hotel of about fifty large rooms, finely located, and will be one of the most commodious and sightly hotels in town. Want of transportation from the business center is the only drawback to the successful opening of this hotel. It is now proposed to run a line of street cars to the hotel, which is likely to be carried out at an early day.

RAILROAD AFFAIRS.

What Col. Crocker Thinks of Traffic Prospects.

How Fruit Figures in the Heavy Freight Business.

Again the Electric Road Runs Against an Obstacle.

Preparing for a Lively Sasson-A Trainload of Musi-Notes.

"Our traffic reports indicate very clearly that a period of great prosperity is just beginning on this coast," said Vice-President C. F. Crocker of the Southern Pacific Company to a Chronicle reporter. "This is particu-larly true of California," he added. "Grain is moving in large quantities over our lines to tide water, the shipments being far greater than at any other corresponding period in former years. This is the result of good prices. At this time last year there was a tendency to hold wheat in the warehouse, and the farmers had anything but a bright outlook. Now, however, the conditions have all changed. It is generally an easy matter to gauge the prosperity of a State when its balance of trade is on the right side, or is even. of trade is on the right side, or is even. In former years the shipments from the East to California by rail were much larger than those from this State east-bound. We used to haul many empty cars to the East in order to secure west-bound tonnage. The volume of the east and westbound shipments is about even, and the cars that come in loaded to back loaded. This is the direct way the content of the direct way to the direct way to the direct way that the direct way the direct way the direct way the direct way that the direct way the direct way the direct way that the direct way the direct way the direct way that the direct way the direct way that the direct way the direct way that the direct way the go back loaded. This is the direct result of the change of the character of the products of California. Cereals have been supplanted by the more valnable product of deciduous and citrus fruits and other crops, the movement of which has equalized that of the manufactured goods coming here by rail from the East. The fruit shipments have been very heavy this year."

SCRAP HEAP.
The Santa Fe overland yesterday had a big list of passengers for the East.

A landslide occurred on the Southern California road below Rincon, on the Riverside and Orange line, Wednesday, but did no damage beyond delaying trains for a time. The Southern Pacific train last night

brought in from El Paso, and carried on up north, two carleads of musicians from Mexico. They were the members of two Mexican military bands, "Zapazores," en route to Portland, Or., where they will open the exposition and afterward make a tour of the country.

summer business.

Workmen in the employ of the Consolidated Electric Street Railway yesterday began to plant a large pole in front of the Palm Hotel, on Fourth street, near the Arcade depot, from which it was intended to stretch a guy to the pole on the corner, which was beginning to yield to the strain of its heavy load of wires. Mr. Avery, owner of the property, appeared in time to stop the work, by vigorously objecting to the company placing the unsightly piece of timber in the sidewalk.

Up to Tuesday the 8th 2075 carloads

Up to Tuesday the 8th 2075 carloads of green fruit had been shipped over the Southern Pacific to the East, against 1750 carloads last year. It is estimated that at least 1800 carloads of raising will be shipped over if the State raisins will be shipped out of the State this year, judging from the good crops everywhere in California, or an increase of 350 carloads over last year, the total shipments for 1890 being 1450 carloads, or 29,000,000 pounds. 1450 carloads, or 29,000,000 pounds. The wine shipments will be in excess of last year's shipments of 2500 carloads, or 49,350,000 pounds. The prune shipments by rail will equal last year's, which were 12,000,000 pounds, or 600 carloads. There has been a slight falling off in canned goods shipments, but they will doubtless exceed 4000 carloads.

Old People.

J. V. S. is the only Sarsaparilla that old or feeble people should take, as the mineral potash which is in every other Sarsaparilla that we know of, is under certain conditions known to be emaciating. J. V. S. on the contrary is purely vegetable and stimulates digestion and creates new blood, the very thing for old delicate or broken down people. It builds them up and prolongs their lives. A case in point:

Mrs. Belden an estimable and cleerly lady of 510 Mason St., S. F. was for months declining so rapidly as to seriously alarm her family. It got so bad that she was finally afflicted with It got so bad that she was finally afflicted with fainting spells. She writes: "While in that dangerous condition I saw some of the testimonials concerning J. V. S. and sent for a bottle. That marked the turning point. I regained my lost flesh and strength and have not felt so well in years." That was two years ago and Mrs. Belden is well and hearty-to-day, and still taking J. V. S.
